Quality System: 21 CFR Part 820 FDA; ISO 13485:2003; CE 505677; CMDCAS/Health Canada license no. 71417

Surround Aerial View

Water is the primary substrate of our bodies, the very essence of life. Since 1500 BC water has been used to create a hydrated and hygienic internal environment. The advanced design of the Angel of Water® CM-1 now brings elegance, simplicity, and dignity to colon irrigation. The Angel of Water® Surround is the system of choice for clinics and medi-spas around the world. Whether used for restorative programs or for preventative maintenance, the Angel of Water® is the safe, simple, effective solution.

The Angel of Water's aesthetics invite the client to enjoy a pleasant and comfortable reclining chair experience lasting approximately 30-40 minutes. Clients are continually amazed by the empowering effects experienced after just one session. And the therapist appreciates its effectiveness, its ease-of-use, and safety features. The Angel of Water® Surround is quiet, sanitary, odorless, and easy to clean and maintain.

Hydration –

“The solution to pollution is dilution.” **The Angel of Water® can deliver water safely and comfortably to a patient via the colon, which not only hydrates that organ but also introduces more water into the liver and the bloodstream via the portal vein. Vital water brings nutrients into cells and moves waste products out of cells. Water is the single most important solution for hydrating the patient.** By improving hydration of the body and peristalsis of the bowel, we can create a more hygienic terrain within the body. This sets a successful stage for the body's innate intelligence to express its wholeness and wellness, both inside and out.

- > Built-in safety rail
- > Internal exhaust fan
- > Under-cabinet storage
- > Dual control panels
- > Temperature control safety sensor
- > Uni-body basin for easy cleaning
- > *Optional Media Center
- > *Optional Ionization Filter

What the Doctors Say...

"As long as we continue to assume that the colon will take care of itself, just that long will we remain in complete ignorance of perhaps the most important source of ill health in the whole body."

James A. Wiltsie, MD

"The restoration of the intestinal elimination, too often ignored, is an important preliminary course to restoration of health. An inefficient colon is not always the cause of sickness, but it is believed to accentuate and prolong any and all diseased conditions of the human body."

J.E.G. Waddington, MD

"We eat a daily diet of processed or fast foods, commonly abuse ourselves with sugar, food additives, caffeine, alcohol, nicotine, and other drugs...medical science is discovering that the regular accumulation of toxins may lead to fatigue, general aches and pains, declining appearance, premature aging, and many chronic diseases. Clearing toxins from the body is a desirable process and an important key to healing.... A body free of toxins, mucus, acids, dead cells, and all the irritants is stronger, healthier, and more vital."

**Elson Haas, MD, Medical Director
of the Preventative Medical Center**

"Most people who think they are tired are actually toxic."

**Sherry Rodgers, MD, American Academy
of Environmental Medicine**

"Every tissue is fed by the blood, which is supplied by the bowel. When the bowel is dirty, the blood is dirty, and so on to the organs and tissues...it is the bowel that invariably has to be cared for first before any effective healing can take place."

Dr. Bernard Jensen

What our Clients Say...

"The Angel of Water® is the equipment that I recommend for patients who have severe constipation and fecal impaction. The results have been very positive. For my patients who have prolapsed colon and sluggish conditions, this is very good equipment. The equipment is easy to keep clean and sanitize. The Angel of Water® is of the highest quality construction. I highly recommend it. And the technical support from the company is fantastic. Finally, it is the favorite equipment for some of my patients."

**Carlos Ayala, Retired M.D. (Colombia),
Doctor of Naturopathy, Colon Therapist**

"We have had our Angel of Water system operational for three months now. So far we have been satisfied with the system and its results. The comprehensive training program we underwent in the United States means that we were well-equipped to set up the system here and confident to operate it. Our guests have commented that the system is more comfortable and private than other systems they have experienced."

**Sally Halstead, RN, CHT, Manager,
COMO Shambhala Estate at Begawan Giri, Bali, Indonesia**

"I was looking for the most appropriate colon hydrotherapy equipment for my anti-aging medicine practice when I was introduced to the Angel of Water®. I knew that this equipment would best fit my busy practice and thought it the most aesthetic equipment available for the intended purpose. My staff, patients, and I have been very happy with the results of my choice and the system's ability to operate without odor. Most importantly, the equipment looks very welcoming and not intimidating at all."

Maria Sulindro-Ma, MD, Pasadena, CA
